MODULAR GANG BOX

**Screwless
Gang Boxes**

Uni Modular Gang Boxes

Pressfit broke new grounds in innovation when we introduced the world's first screwless gang boxes! Uni Gang Boxes do not need screws to fit the top and bottom units together. Built on a simple, easy-to-use, sturdy locking mechanism, they provide a clean, pristine look to your switches, without having to use any covers. They are made using heavy-duty, UV-resistant polycarbonate, extending the life of the product multi-fold!

FEATURES

Easy to Install

By understanding the needs and wants of consumers, we have created a wide range of user-friendly gang boxes. You can easily install them in minutes without much effort.

Durable

Our products are reliable and more durable. Made using superior raw materials, Pressfit's Gang Boxes have higher impact strength and can sustain harsher environments.

Elegant Designs

With better and more elegant designs, Pressfit's Wiring Devices and Electrical Enclosures look better and are more pleasing to the eye.

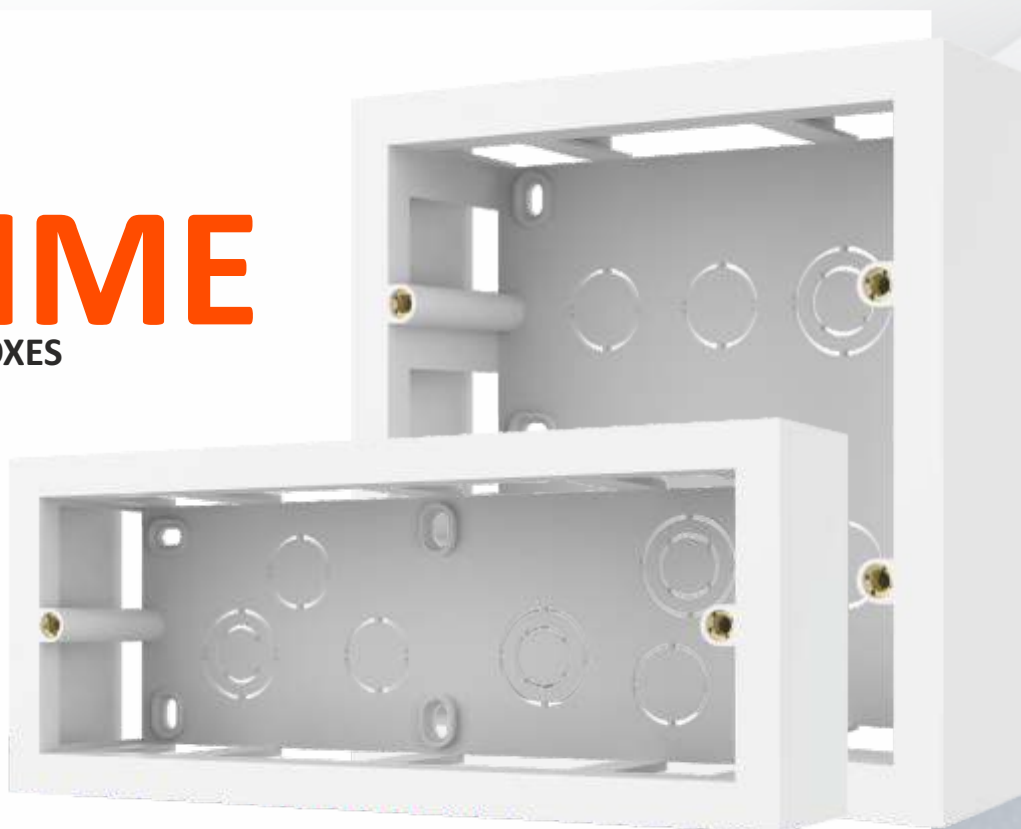

Widest Range

Pressfit has the widest range of Wiring Devices and Electrical Enclosures in the marketplace. We give the customers more options to choose from and meet their requirements.

FEATURES

Fine Finish

Made using top-quality raw materials in our state-of-the-art machinery gives our products an enviably fine surface finish. Being on the surface, it's an important distinguishing factor that users must consider.

Unmatched Designs

To meet a wider clientele's needs and tastes, we offer multiple solutions in every product category – including surface boxes.

Longer Product Life

Fine materials and better engineering design is reflected well in our product life – which is way greater than the alternatives.

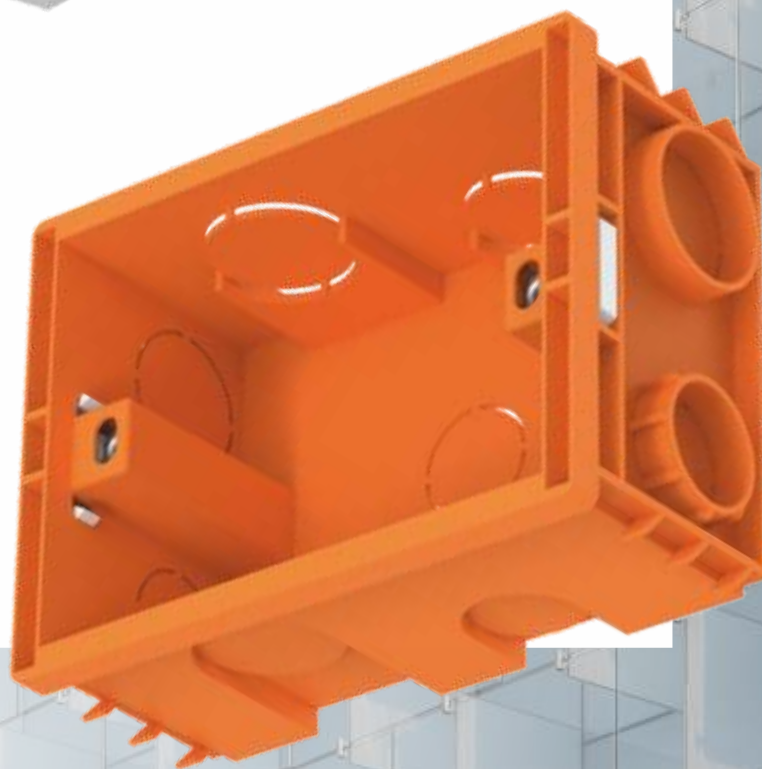

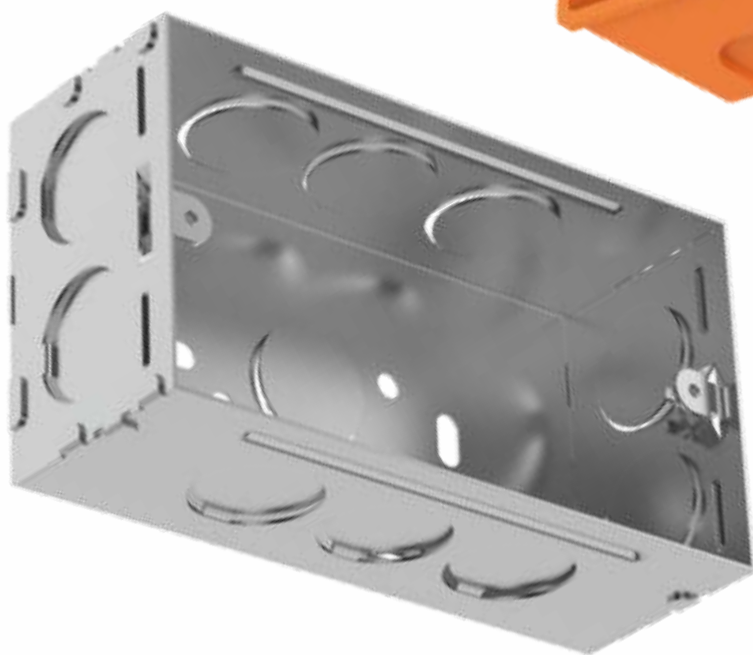

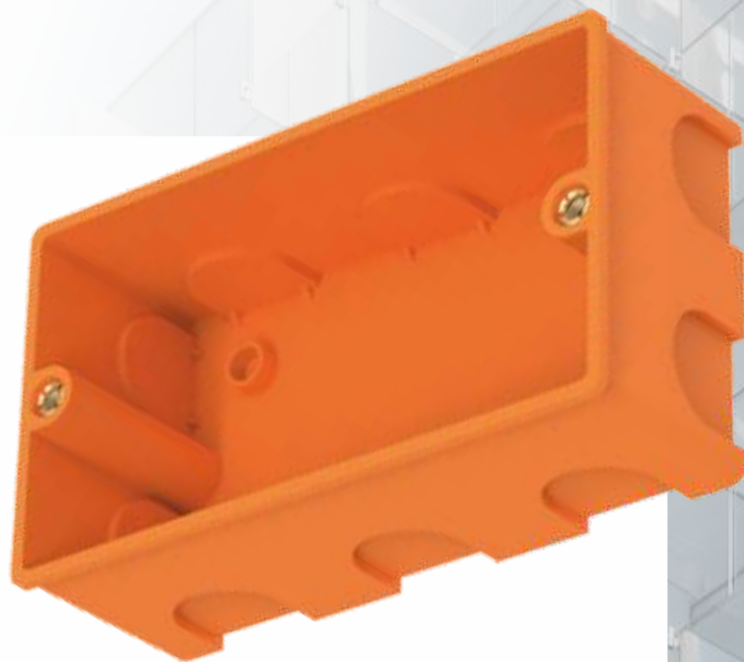

Superior Brass Parts

Pressfit's surface boxes have premium brass parts with fine threading and greater impact strength – an important factor during application.

FEATURES

Adequate Knockouts

They have a sufficient number of knockouts on all sides so that you can use them flexibly in different directions for easy and safe wiring installation.

Sturdy Construction

All of our concealed boxes can withstand higher pressure than the market alternatives thanks to better product engineering.

Greater Product Life

Plastic boxes do not catch rust and our metal concealed boxes have an anti-rust coating that safeguards your wiring for decades!

Unmatched Designs

To meet a wider clientele's needs and tastes, we offer multiple solutions in every product category – including our concealed boxes.

ISI Switch Boards

Gemini Switch Boards

ISI Switch Boards

Pressfit is an industry-leader in ISI-marked non-modular Switch Boards, certified by the Bureau of Indian Standards (BIS). Our switch boards have a finer surface finish, stronger support pillars, and greater wall thickness for rigidity. By their nature, switch boards are installed on the surface, mostly in harsher environments – which makes the choice of Pressfit even more obvious!

We offer 2 types of Switch Boards:

- a) **Plain** – that must be cut manually by the electricians as per their requirement on site, and
- b) **Cutting** – that are pre-cut providing convenience for standard configurations.

Gemini Switch Boards

Pressfit's Gemini Switch Boards are one of the most customizable products in the non-modular wiring devices segment. They have a pre-built solution for mounting lamp holders and all switch ways (1 way) can be converted to socket ways (2 way) easily – making them future-proof. They have well-placed support pillars giving them superior strength as well as an edge-support locking mechanism, making it easier for the end users.

Code	Description	Pkg.	M. Pkg.

585030	8 x 10 - 13 Way	5	90

Depth: 1.97"

FEATURES

Heat Resistance

Excessive heat can shorten the lifespan of the switchboard. To counter this, our products are inherently heat-resistant, which is one of the reasons for the longevity of our products.

Easy Lock Fitting

The male-female locking mechanism makes it super simple for electricians to firmly adhere cover and base with each other. This also makes the entire structure more robust.

Sturdy Pillar Support

The inner pillars are placed within the enclosure to support maximum pressure. Besides, the pillars are thicker and stronger for supreme reliability and structural support.

Special Cutting for Lamp Holders

Special provisions made for bulb holders save your time and labor by avoiding the manual cutting required when installing an electric bulb within the switchboard.

Nano Gang Boxes

Pressfit has been one of the foremost manufacturers of electrical gang boxes in India for over 2 decades! The legendary Nano Gang Box was first created by Pressfit. It was the first product that offered the flexibility of breaking sides and converting switch gangs to socket domestic gangs. Pressfit's Nano Gang Box is still one of the best selling models of electrical gang boxes in the country.

Decorative Sheets

Pressfit's Decorative Sheets are simple heavy-duty plastic plates used to cover electrical points that may be wired in the future. They aesthetically cover open boxes and protect the internal wiring from dust, moisture, and external influence.

They can also be used to create custom switch panels by making cutouts for the desired applications. We make them in a wide variety of dimensions, making them compatible with all possible plate sizes.

Junction Boxes

Pressfit Junction Boxes for switches are the housing boxes that accommodate wiring joints across various junctions of electrical lines. They protect them from dust, moisture, and external influences.

These boxes prove to be very handy for maintenance and repair work and also fulfill the important task of keeping joints solid and reliable for years to come!

MCB Boxes

MCB Enclosures (also known as MCB Boxes) are used to connect the MCBs with the electrical circuit and provide them the mounting rails and necessary support. Naturally, the MCB Boxes protect the electrical wiring from direct contact with foreign objects or accidental human touches.

Pressfit offers an unmatched variety of MCB Boxes to meet the diverse tastes of the Indian industry – in various shapes, sizes, and types, e.g., plastic back, metal back, with a protective cover, etc.
